

Our office is open! But it is not business as usual...

We are taking steps to enhance patient and staff safety. We are extending the time allotment for all our patients to take better care of you and to ensure ample time between to clean, sanitize, and prepare.

We are limiting the number of people in the office to facilitate social distancing. We are having our patients wear masks and sanitizing surfaces in high traffic areas within the clinic. We are doing phone health screening to minimize our exposure to COVID-19 positive cases. If we are not feeling well, we are staying home.

As a thank you to our patients, we are extending our already awesome 50% discount on 2nd and 3rd pairs of lenses to family members — and we are giving our patients 120 days to redeem it!
